Selection of a Primary Care Provider - your plan may require or allow the designation of a primary care provider. You have the right to designate any primary care provider who participates in the network and who is available to accept you or your family members. If your plan requires designation of a primary care provider, Cigna may designate one for you until you make this designation. For information on how to select a primary care provider, and for a list of the participating primary care providers, visit www.mycigna.com or contact customer service at the phone number listed on the back of your ID card. For children, you may designate a pediatrician as the primary care provider.

Direct Access to Obstetricians and Gynecologists - You do not need prior authorization from the plan or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, visit www.mycigna.com or contact customer service at the phone number listed on the back of your ID card.

Pharmacy	In-Network	Out-of-Network

- **Member Choice Cigna 90 Now:** This network of pharmacies includes major retail chains of Walgreens and CVS, in addition to other grocery, retailer, and independent pharmacies. You will be aligned to either the Walgreens or CVS network based on your existing pharmacy relationship. Where no relationship exists, you will be aligned to plan sponsor elected CVS pharmacy. If that designation is not right for you, there is the option to select Walgreens. For more information, go to myCigna.com or call the number on the back of your ID card. Retail drugs for a 30-day supply may be obtained in-network at a wide range of pharmacies across the nation although prescriptions for a 90-day supply (such as maintenance drugs) will be available at select network pharmacies.
- Cigna 90 Now Program: You can choose to fill your medications in a 30- or 90-day supply. If you choose to fill a 30-day prescription, it can be filled at any network retail pharmacy or network home delivery pharmacy. If you choose to fill a 90-day prescription, it must be filled at a 90-day network retail pharmacy or network home delivery pharmacy to be covered by the plan.
- Specialty medications are used to treat an underlying disease which is considered to be rare and chronic including, but not limited to, multiple sclerosis, hepatitis C or rheumatoid arthritis. Specialty Drugs may include high cost medications as well as medications that may require special handling and close supervision when being administered.
- When you request a brand drug, you pay the brand cost share plus the cost difference between the brand and generic drugs up to the cost of the brand drug (unless the physician indicates "Dispense As Written" DAW) (MAC B).
- Pharmacist will dispense the brand medication, and the patient will pay the generic cost share, when the medication is part of the Brand-for-Generic Substitution Program (DAW9).
- Exclusive Specialty Home Delivery (ESHD): Specialty medications must be filled through home delivery; otherwise you pay the entire cost of the prescription upon your first fill. Some exceptions may apply.
- If you use a manufacturer coupon to pay for some or all of the cost of a medication, the value of the coupon may not apply towards meeting your plan deductible or out-of-pocket maximum, if any.
- **SaveOn Specialty Program:** Certain specialty pharmacy drugs may be considered non-essential health benefits and may fall outside of the deductible and out-of-pocket limits. All drugs in this program are potentially subject to a higher cost share than amounts set forth above. If you participate in the program, cost share may be paid through a manufacturer copay assistance program and your out-of-pocket cost may be reduced to $0. If you do not participate in the program, then you will be responsible for the payment of the cost share for these medications and payment will not be applied towards your deductible and out-of-pocket maximums. See your plan documents for more specific information.
- Your pharmacy benefits share an out-of-pocket maximum with the medical/behavioral benefits.
- When using a glucagon-like peptide 1 (GLP-1), it is important to have extra clinical care and support from your doctor and pharmacist. There are pharmacies in your plan's network that can help including Evernorth EnGuide℠ Pharmacy.

Preventive Drugs:
Federally required preventive drugs will not be subject to deductible and will be provided at no charge. In addition, in-network generic preventive drugs and products included in the preventive package will be provided at no charge. This may apply to drugs for:

Asthma, cholesterol lowering, depression, diabetes (including diabetic supplies but excluding continuous glucose monitor supplies), heart disease and stroke, high blood pressure, osteoporosis, prenatal vitamins

Additional Information

Maximum Reimbursable Charge
The allowable covered expense for non-network services is based on the lesser of the health care professional's normal charge for a similar service or a percentage of a fee schedule (110%) developed by Cigna that is based on a methodology similar to one used by Medicare to determine the allowable fee for the same or similar service in a geographic area. In some cases, the Medicare based fee schedule will not be used and the Maximum Reimbursable Charge for covered services is based on the lesser of the health care professional's normal charge for a similar service or a percentile (80th) of charges made by health care professionals of such service or supply in the geographic area where it is received. If sufficient charge data is unavailable in the database for that geographic area to determine the Maximum Reimbursable Charge, then data in the database for similar services may be used. Out-of-network services are subject to a plan year deductible and Maximum Reimbursable Charge limitations.

Out-of-Network Emergency Services Charges
1. Emergency Services are covered at the in-network cost-sharing level as required by applicable state or federal law if services are received from a non-participating (out-of-network) provider.
2. The allowable amount used to determine the plan's benefit payment for covered Emergency Services rendered in an out-of-network hospital, or by an out-of-network provider in an in-network hospital, is the amount agreed to by the out-of-network provider and Cigna, or as required by applicable state or federal law.

The member is responsible for applicable in-network cost-sharing amounts (any deductible, copay or coinsurance). The member is not responsible for any charges that may be made in excess of the allowable amount. If the out-of-network provider bills you for an amount higher than the amount you owe as indicated on the Explanation of Benefits (EOB), contact Cigna Customer Service at the phone number on your ID card.

Medicare Coordination
In accordance with the Social Security Act of 1965, this plan will pay Secondary to Medicare Part A and B as follows:
(a) a former Employee such as a retiree, a former Disabled Employee, a former Employee's Dependent Spouse and/or Dependent Child(ren), including a former Employee's Domestic Partner, or a COBRA continuant (whose insurance is continued for any reason), and who is also eligible for Medicare due to age or disability;
(b) an Employee's Domestic Partner who is also eligible for Medicare due to age;
(c) an Employee, a former Employee, an Employee's or former Employee's Dependent Spouse and/or Dependent Child(ren), an Employee's Dependent, including a Domestic Partner, who is eligible for Medicare due to End Stage Renal Disease after that person has been eligible for Medicare for 30 months.

When a person is eligible for Medicare A and B as described above, this plan will pay as the Secondary Plan to Medicare Part A and B **regardless if the person is actually enrolled in Medicare Part A and/or Part B and regardless if the person seeks care at a Medicare Provider or not for Medicare covered services.**

One Guide
Available by phone or through myCigna mobile application. One Guide helps you navigate the health care system and make the most of your health benefits and programs.

Out-of-Area Services • Coverage for services rendered outside a network area • ER and Ambulance paid the same as network services • Preventive care services covered at 100% for out-of-area • Out-of-network deductible and out-of-pocket maximums apply. Complete Care Management
Pre-authorization is required on all inpatient admissions and selected outpatient procedures, diagnostic testing, and outpatient surgery. Network providers are contractually obligated to perform pre-authorization on behalf of their customers. For an out-of-network provider, the customer is responsible for following the pre-authorization procedures. If a customer does not follow requirements for obtaining pre-treatment authorization, a $250 penalty will be applied.
